SKIOLD DIGITAL APP

Hardware requirements - smartphone:

Apple iPhone 6s or later with at least 2 GB of memory.

Samsung Galaxy S7, LG G5 or newer Android phones with at least 4 GB of memory.

Note: Only Android based devices can be used together with the reader for the electronic tags for ESF – bluetooth communication under iOS is not supported by the provider.

Hardware requirements - tablet:

Apple iPad Air 2, iPad 2017 or later with at least 2 GB memory.

Samsung Tab 2, Samsung Tab Active 2, Lenovo Yoga Tablet 3 Pro and newer models with at least 4 GB memory.

Internet connection:

Recommended speed: Download 10Mbit Upload 1Mbit

*) Minimum speed: Download 1Mbit Upload 1Mbit

*) At login all necessary data is downloaded, this will take time at this speed, but data will be downloaded. After that only changed / new data is sent back.

All mobile devices must be connected to the Internet either via mobile broadband or WI-FI. Some functions in SKIOLD digital, such as “Adjust feed”, can be used while the device is offline, but an Internet connection is required to synchronize changes to the controller, e.g. Distriwin.
